RE: Justice for Voters in Greene County

Honorable Madam Sewell:

I pen this letter seeking your assistance in our pursuit for justice in Greene County, Alabama; which is geographically aligned within the 7<sup>th</sup> Congressional District.

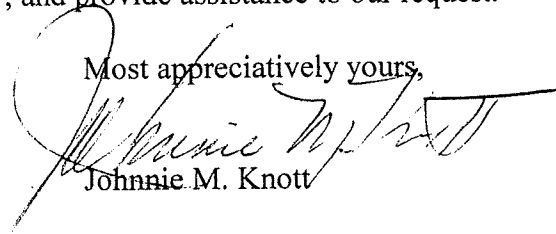

Amendment 743 passed in a special session of the legislature in September of 2003 and passed by a vote of 82% of the people in Greene County in November of 2003, solely to authorize electronic bingo in Greene County. Prior to 2003, the federal government recognized that bingo could be played on electronic devices. In 2002, Indian casinos were utilizing advanced technology for which to operate bingo electronically in Alabama, an entire year before the passage of the Greene County amendment.

In 2010, Governor Bob Riley closed Greenetrack down, a facility authorized to operate electronic bingo and on June 1, 2011, Governor Robert Bentley allowed for the closing down of Greenetrack after its reopening. This is unfair and a blatant disregard for what the people voted for in Greene County.

I, along with the attached listed individuals, request the intervention of the United States Justice Department on this matter. This establishment is the largest employment in Greene County. Charities, of which we are listed, who reach the grass root people depend solely upon funds generated by this organization, several other agencies depend upon the revenue generated from this establishment.

Please adhere to our cry, and provide assistance to our request.

Most appreciatively yours,

  
Johnnie M. Knott
